

RealPresence Trio 8800

The Polycom RealPresence Trio 8800 delivers the best ever audio experience, making every conversation, every spoken word just that much clearer. The RealPresence Trio breaks through the sound barrier by providing the most amazing sound quality, and it redefines the category by serving as the smart hub for your group collaboration. RealPresence Trio extends the audio experience by making it easy for you to bring your own device (BYOD) through wired or wireless pairing for mobile phone and soft-client audio calling.
