## SIP-T48S

The SIP-T48S is Yealink's newest, most innovative IP Phone for a fast-changing world. Designed specifically for both executive and power users in all vertical markets, it incorporates a large touch panel that makes switching between different screens and applications fast, easy, and convenient. The T48S includes a dual Gigabit Ethernet port. It facilitates rapid call handling and the application of accessories such as a Bluetooth USB Dongle, plus wired and wireless headsets. This new IP Phone supports impressive productivity-enhancing features that make it the natural and obvious choice for today's busy executives and professionals.
